

Mustorpha Jamiu

Software Engineer

An enthusiastic software engineer with passion for crafting innovative and efficient solutions. My expertise lies in utilizing cutting-edge technologies and frameworks to deliver scalable and user friendly software solutions. My collaborative mindset, attention to detail, and commitment to best practices make me a valuable asset to any development team. I'm excited about the opportunity to contribute my skills and creativity to projects that drive real-world impact. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

Address

Lagos, Nigeria

Education

2020

Full Stack Web Development

Hosanna Technologies

2023

Software Engineering

Holberton School - ALX

2023

CyberSecurity

Google (Coursera)

Expertise

- Communication
- Adaptability
- Teamwork
- Logging, Monitoring and Testing
- Object-Relational Mapping
- Process Flows
- Version Control
- Linux/Unix
- API Development
- Database management & Security

Experience

2023 - Present

Upnyx Innovative Solutions | Kerala, India

Backend Developer

- Implement security best practices to protect the backend codebase from attacks such as SQL injection, cross-site scripting, and other vulnerabilities.
- Participating in team meetings and code reviews.
- Developed a RESTful API that allowed the app to integrate with backend services, resulting in enhanced user experience
- Utilized Cloud technologies to create a highly scalable and reliable backend system

2022 - 2023

Hosanna Technologies | Lagos, Nigeria

Web Developer

- Designing, coding, and maintaining websites and web applications.
- Implementing web development best practices and standards.
- Building server-side logic, databases, and APIs.
- Integrating front-end components with back-end services.
- Implementing security best practices to protect web applications from vulnerabilities.
- Worked effectively with multidisciplinary teams and contributed to project success.
- Refactored legacy code to improve reliability, scalability and maintainability

2020 - 2022

Hosanna Technologies | Lagos, Nigeria

Web Developer - Intern

- Collaborating with senior developers to implement new features or enhancements.
- Assisting in testing and debugging web applications to identify and resolve issues.
- Identifying and addressing technical challenges in the development process.
- Successfully completed assigned tasks and projects within the internship period.
- Write technical documentation for APIs, databases, and other backend components to ensure that the codebase is well-documented and easy to maintain.
- Stay up-to-date with the latest trends and technologies in backend development and implement them in the codebase where appropriate.
